BOUCAN
DESIGN IBRIDE
GRAPHISMES JURAJ STRAKA, 2025

IBRIDE UNVEILS A NEW WALL COMPOSITION.

Following the Boucan lighting pieces and velvet cushions, Ibride continues to expand the collection, featuring the vibrant graphic universe of Juraj Straka. A world where light, color and nature resonate in a shared, joyful energy. Now, nature takes on a new dimension, moving onto the walls through modular compositions designed to be freely arranged.

Ibride extends its vision of free-spirited nature across the walls, where it unfolds like cultivated vegetation. Two mirrors framed with foliage and two plant-inspired elements that double as coat hooks come together to form a singular landscape.

Displayed as a set or arranged individually, the Boucan wall pieces create a living composition where décor, reflection and function interact seamlessly. The mirrors offer a subtle moment of reflection, while Juraj Straka's vibrant motifs bring movement to both the surface and the eye.

Echoing this landscape, four small hooks continue the conversation between nature and the interior.

MODULES, FREEDOM IN COMPOSITION

Designed as free-standing elements, the pieces can be combined or displayed separately, adapting to any space. Each stands alone or interacts with the others, offering a constantly evolving interpretation. Sold individually, they encourage you to imagine your own version of the composition.

USE

Indoor

MADE IN FRANCE

Cut and assembled in our production workshop in Fontain.

MATERIAL

Wood and compact laminate

MIRRORS BOUCAN

DIMENSIONS : L.47 X H.48 CM & L.69 X H.80 CM
